

Blackhawk Omni Trucker Edge Antenna

698-960/1710-2170 MHz, 6dBi / 8dBi (BH-OM-202TB or W)

Futureproof your vehicle installations with this high grade, ruggedised Omni Trucker Edge antenna. This premium grade cellular antenna will satisfy 3G and 4G capabilities for all the major networks in Australia and can be used for commercial and industrial 3G and 4G applications.

The Blackhawk Omni Trucker Edge Antenna (1200mm) will provide the perfect solution for voice and data applications where high gain antennas are required while on the move. Combine with Cel-Fi applications to never be out of contact when away from home.

Features:

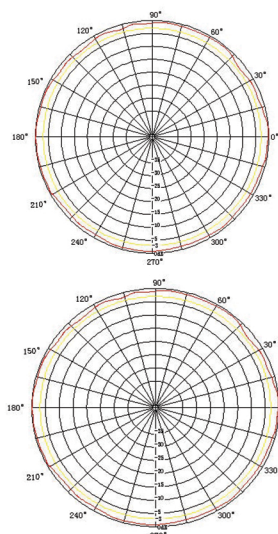

- ◆ Option of white or black antenna
- ◆ Height 1200mm
- ◆ Ruggedised construction for extreme conditions
- ◆ Extra heavy duty spring stainless steel base ideal for bull bar mount
- ◆ Included is 4 metres of RG58 cable supplied with FME female connector
- ◆ No tuning necessary

BLACKHAWK OMNI TRUCKER EDGE

ELECTRICAL SPECIFICATIONS	MECHANICAL SPECIFICATIONS
Freq Range 698-960/1710-2170MHz	Height 1200mm
Impedance 50 Ω	Weight 1.40kg
VSWR \leq 1.2	Operating Temperature -40°C- +70°C
Gain 6dBi/8dBi	Termination FME-Female
Max Input Power 50W	Material Glass / Steel
Vertical Beamwidth H 360° E22°/E46°	Antenna Colour Black or white
	Diameter of installing pole 32.5mm
