# **Package Contents**

Power Adapter (24V, 0.5A)

## **System Requirements**

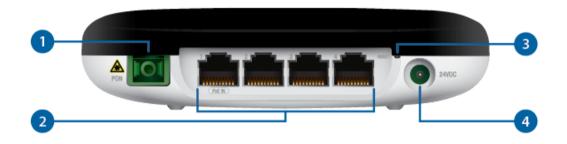

- Linux, Mac OS X, or Microsoft Windows 7/8/10
- Web Browser: Google Chrome (Other browsers may have limited functionality)

Designing your first GPON deployment requires specific knowledge and planning. For information on GPON network design and installation, including important considerations and best practices, refer to:

- ubnt.link/UFiber-GPON-Getting-Started
- ubnt.link/Designing-a-GPON-Network

For details on configuring UFiber devices for the first time to allow ONU LAN ports to provide connectivity, refer to: ubnt.link/UFiber-Initial-Configuration

### **Hardware Overview**

**UF-WIFI Quick Start Guide** 

### 1 PON Port

SC/APC GPON port supports WAN connections of 2.488 Gbps downstream and 1.244 Gbps upstream.

### 2 LAN (Ports 1 - 4)

RJ45 Ethernet LAN ports support 10/100/1000 Mbps connections. Port 1 also supports 24V Passive PoE to power the device.

### 3 Reset Button

The Reset button serves two functions for the UF-WIFI:

• Restart Press and release the Reset button quickly. The three signal LEDs will flash amber.

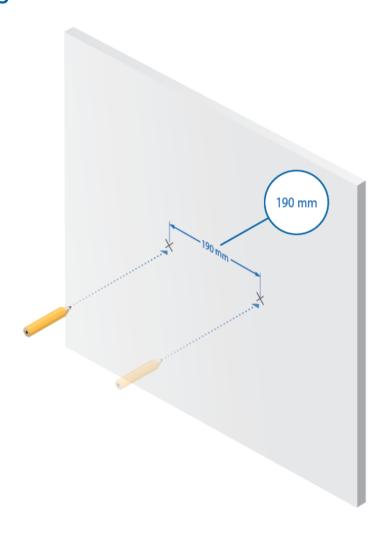

4 Power Port	
The Power Adapter connects to this p	ort to provide power.
White	Ethernet connection up
5 Signal LEDs	
Off	Bootup
	Signal strength: low ≥ -28 dBm
	Signal strength: good ≥ -25 dBm
	Signal strength: strong ≥ -11 dBm
	Signal strength: too low < -28 dBm  Check the quality of the fiber connection, and calculate the total optical loss of the optical

	Signal strength: too strong
	≥ -8 dBm
	Add an optical splitter, or add a 5 or 10 dB optical attenuator.
	No signal
	Check the fiber cables and connectors, and ensure that the OLT functions properly.
	No authority
	The UF-WIFI has not been authorized or cannot communicate with the OLT. Check passwords and OLT settings.
6 Ethernet LED	
Off	Ethernet connection down
White	Ethernet connection up
VVIIIC	Flashing indicates activity
7 Power LED	
Off	Power off
White	Power on

# **Hardware Installation**

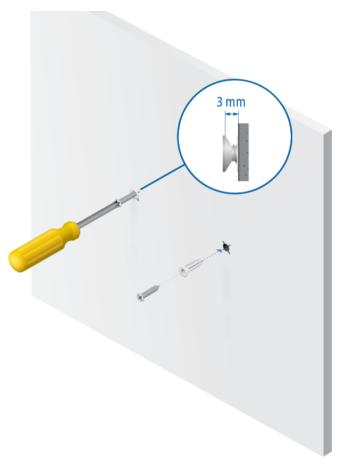

.....

1.

3.

4.

# **Connecting Fiber**

**WARNING:** Never look directly into the ends of fiber or modules. The emitted light could cause damage to the eye.

**WARNING:** Until ready for use, keep modules and fiber patch cables covered using the included protective caps to ensure the connections stay clean.

received signal level never exceeds -8 dBm. Use a UFiber PLC Splitter to add attenuation as needed.

**Connecting LAN** 

UF-WIFI Quick Start Guide

# **Connecting Power**

**WARNING:** The PoE switch must comply with the power specifications listed in the Specifications section of this Quick Start Guide.

### **Accessing the Configuration Interface**

- 1. Ensure that your computer (or other host system) is connected to the device.
- 2. Configure the Ethernet adapter on your host system with a static IP address on the 192.168.1.x subnet.
- 3. Launch your web browser. Type http://192.168.1.1 in the address field. Press enter (PC) or return (Mac).

4. Enter ubnt in the Username and Password fields. Click Login.

Customize settings as needed. For more information, refer to the UFiber resources, which are available at: http://ubnt.link/UFiber-Support

# **Specifications**

UF-WIFI						
Dimensions	126.34 x 126.09 x 31.65 mm (4.97 x 4.96 x 1.25")					
Weight	190 g (6.70 oz)					

(1) OC/APC, GPON WAIN
(4) Gigabit RJ45, Ethernet LAN
(1) Wi-Fi, 802.11n
2.4 Gbps Down, 1.2 Gbps Up
10/100/1000 Mbps
300 Mbps
In-Band Ethernet
PON
TX (Class B+): 1.5 to 5 dBm
RX: -28 to -8 dBm
DC Jack, 24VDC
24V Passive PoE (Pins 4, 5+; 7, 8-)
100-240VAC / 50-60 Hz Universal AC/DC
24V / 0.5A
7W
20 to 28V
MIPS, 900 MHz
256 MB DDR
(1) Reset
-10 to 45° C (14 to 113° F)
10 to 90% Noncondensing
CE, FCC, IC

# **Safety Notices**

3. Only use attachments/accessories specified by the manufacturer.

**WARNING:** To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.

WARNING: Do not use this product in location that can be submerged by water.

**WARNING:** Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.

**WARNING:** CLASS 1 LASER PRODUCT - Do not look into the ends of the fiber optic cable or SFP modules while converters are powered.

## **Electrical Safety Information**

- 1. Compliance is required with respect to voltage, frequency, and current requirements indicated on the manufacturer's label. Connection to a different power source than those specified may result in improper operation, damage to the equipment or pose a fire hazard if the limitations are not followed.
- 2. There are no operator serviceable parts inside this equipment. Service should be provided only by a qualified service technician.

## **Limited Warranty**

#### ui.com/support/warranty

The limited warranty requires the use of arbitration to resolve disputes on an individual basis, and, where applicable, specify arbitration instead of jury trials or class actions.

# Compliance

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions.

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operations of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This radio transmitter has been approved by FCC.

### **ISED Canada**

### CAN ICES-3(A)/NMB-3(A)

This device complies with ISED Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1. This device may not cause interference, and
- 2. This device must accept any interference, including interference that may cause undesired operation of the device.

This radio transmitter has been approved by ISED Canada.

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

#### CAN ICES-3(A)/NMB-3(A)

- 1. l'appareil ne doit pas produire de brouillage;
- 2. l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Le présent émetteur radio a été approuvé par ISDE Canada.

Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

#### **IMPORTANT NOTE**

### **Radiation Exposure Statement**

- This equipment complies with radiation exposure limits set forth for an uncontrolled environment.
- This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

#### **AVIS IMPORTANT**

### Déclaration sur l'exposition aux rayonnements

- Cet équipement est conforme aux limites prévues pour l'exposition aux rayonnements dans un environnement non contrôlé.
- Lors de l'installation et de la mise en fonctionnement de l'équipement, assurez-vous qu'il y ait une distance minimale de 20 cm entre l'élément rayonnant et vous.
- Cet émetteur ne doit être installé à proximité d'aucune autre antenne ni d'aucun autre émetteur, et ne doit être utilisé conjointement à aucun autre de ces appareils.

### **Australia and New Zealand**

Warning: This equipment is compliant with Class A of CISPR 32. In a residential environment this

### **Brazil**

**Nota:** Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados.

### **CE Marking**

CE marking on this product represents the product is in compliance with all directives that are applicable to it.

#### **Country List**

AT	BE	BG	CY	CZ	DE	DK	EE	EL	ES	FI	FR	HR	HU
IE	IT	LV	LT	LU	MT	NL	PL	PT	RO	SE	SI	SK	UK

BFWA (Broadband Fixed Wireless Access) members noted in blue

Note: This device meets Max. TX power limit per ETSI regulations.

The following apply to products that operate in the 5 GHz frequency range:

**Note:** This device is restricted to indoor use only when operating in the 5150 - 5350 MHz frequency range within all member states.

Note: All countries listed may operate at 30 dBm. BFWA member states may operate at 36 dBm.
